Classical Course.

This course is designed to prepare Teachers for Classical High Schools. The branches studied are the same as those of the Elementary and Scientific courses, together with the usual amount of Latin and Greek reading required in Colleges. To complete it, it will require two years in addition to the time required for the Scientific Course. Those who prefer it, may substitute the French and German Languages for an equivalent amount of Latin and Greek Reading.

CLASSES.

Classes are formed in the school outside the regular course somewhat according to the wants of the students; but classes beginning with the school year, usually continue from one term to another without change.

It is very desirable to form all classes in the languages the first term of the school year, and that those commencing any language should continue at least one year.

MISCELLANEOUS.

THESIS.—In each course a thesis must be written upon some educational subject.

SUBSTITUTIONS.—Ladies may be permitted to substitute for Spherical Trigonometry, Analytical Geometry, Calculus and the Mathematical parts of Natural Philosophy and Astronomy, an equivalent amount of Latin, French or German.

AT EXAMINATION, a paper stating that the candidates have completed the course of study for Normal Schools; have taught the required time in the Model School, and have been examined and approved by the Faculty, shall be presented to the Board of Examiners.

RECOMMENDATIONS.—The pupils of the Normal School are recommended to study the Latin, French and especially the German Language, as far as practicable.

Pupils, to graduate in a Normal School, must attend at least twenty-one weeks.

Pupils applying for a diploma in any course, must be examined in all the studies of that course.

When a pupil is sick and unable to attend the examination, a paper signed by the Faculty and presented to the Board of Examiners, stating that the standing of such pupil is above the average standing of the class, shall be considered satisfactory evidence of the pupil's qualification for a diploma.

Papers for second diplomas must be presented to the Board of Examiners at their regular session.

EXAMINATIONS.

Term examinations occur the last two days of every Term.

The examinations for graduation are conducted by the Faculty of the School and by a Board of Examiners.

The Faculty first examine the candidates, and if found qualified, they refer them to the Board.

The State Superintendent, who is President of the Board, two Principals of State Normal Schools and two County Superintendents of Fifth District, constitute the Board of Examiners.

The Final examination of Graduating Class occurs about two weeks before Commencement; the date is fixed by State Superintendent.

DIPLOMAS.

A student graduating in the Elementary Course, will receive a diploma, in which will be named the branches he has studied, and by which he will be constituted BACHELOR OF THE ELEMENTS; the diplomas of those graduating in the Scientific and Classical Courses, will enumerate the distinctive branches of these Courses, and constitute their holders, respectively, BACHELOR OF THE SCIENCES, and BACHELOR OF THE CLASSICS.

Regular graduates who have continued their studies for *two years*, and who have practiced their profession during *two full annual terms** in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners, a certificate of good moral character and skill in the Art of Teaching from the Board or Boards of Directors in whose employ they taught, countersigned by the proper County Superintendent, may receive second diplomas, constituting them MASTERS in the several studies embraced in the Course in which they graduated, and conferring upon them corresponding professional degrees, as follows:

Teachers of Elementary Didactics.

Teachers of Scientific Didactics.

Teachers of Classical Didactics.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant Diplomas or State Certificates to actual teachers in Common Schools, without their having attended the Normal Schools as students. The following are the conditions upon which these Diplomas will be granted:

1. Each applicant must be 21 years of age, of good moral character, and have taught successfully during three consecutive terms in a common school, or in common schools in this State; the proof of age to be the declaration on honor of the applicant, and of moral character, and the satisfactory discharge of the requisite terms of teaching, a certificate from the proper Board or Boards of Directors, signed by the President and Secretary, and countersigned by the proper County Superintendent or Superintendents.

2. The examinations to be in the Elementary, Scientific, or Classical Course, as the applicant may select, according to the list of studies as printed in the circulars of the State Normal

*An annual Term must be at least *five months*.

Schools, and approved by the Superintendent of Common Schools, or in such other studies as may by the Board of Examiners be deemed equivalent.

3. Any person obtaining a certificate in the Elementary or Scientific Course, may, at the next or any succeeding annual examination, be examined for the higher course, and obtain the proper certificate.

4. Each applicant to prepare and present to the Board of Examiners, an original thesis on some professional subject, of not less than six folio pages of manuscript, to be retained at the school where the examination takes place.

5. The examination and certificate to be without expense to the applicant, and the certificate to be full evidence of qualification to teach the branches therein named, in any part of the State, without further examination.

6. Practical teachers attending examinations at State Normal Schools, for the purpose of procuring State Certificates, should be examined separately from the regular students, and both the Board of Examiners and the Faculty of the School at which the examination is held, should take part in the examination, all being required to sign the certificate.

All the Diplomas are authorized and furnished by the State, and exempt those who hold them from any further examination by authorities acting under the provisions of our Common School laws.

APPLICATION FOR TEACHERS.

Many Principals of Academies and Seminaries, and Directors of Common Schools apply to us for Teachers. We are always glad when we can answer such requests by furnishing good teachers, but we are better able to do so near the close of each term. Our friends must not suppose, however, that *all* persons who attend our school three to six months, are made good teachers.

We hold ourselves responsible only for graduates.

TEXT BOOKS.

MATHEMATICS.—Robinson's Series; Greenleaf's Geometry; Davies' Surveying.

LANGUAGE.--*Latin*: Harkness' Grammar and Reader; Chase & Stuart's Classical Series. *Greek*: Hadley's Grammar; Borse's Anabasis; Crosby's Greek Lessons. *German*: Woodbury's Reader; Wilhelm Tell; Goethe's Works. *French*: Faguelle's French Course, Reader, Cerium, Piccola. *English*: Webster's Dictionaries; Parker & Watson's Readers; Kerl's Grammar; Thomas' Etymology; Quackenbos' Rhetoric; Coppee's Logic; Shaw's English Literature.

NATURAL SCIENCE.—Kiddle's Astronomy; Wells & Olmstead's (Snell's ed.) Natural Philosophy; Wells' Geology; Gray's Botany; Hitchcock's Physiology; Youman's Chemistry; Agassiz's Zoology.

HISTORY.—Barnes' United States; Weber's General History; Townsend's Civil Government.

GEOGRAPHY.—Warren's and Mitchell's.

THEORY OF TEACHING.—Wickersham's School Economy and Methods of Instruction; Page's Theory of Teaching.

ARTS.—Spencerian Penmanship; Bryant & Stratton's Book-keeping; Bartholomew's Drawing.

Terms.

The Normal School Year is divided into three Terms, fourteen weeks each.

Expenses.

Tuition in all branches, including Book-Keeping, Drawing, Penmanship, and Vocal Music, and Boarding, including fuel, oil, room-rent, and washing (12 plain pieces) \$67.00 per term, or \$201.00 per year. First payment, \$40, to be made first day of the term; second payment, \$27, to be made at the middle of the term.

Tuition, without boarding, including all branches as above, \$12 per term, or \$36 per year. First payment, \$8, to be made first day of the term; second payment, \$4, to be made at the middle of the term.

State Appropriations,

From \$21 to \$92 per School Year, to Students and Graduates.

By a recent Act of the Legislature, the following appropriations are made by the State to Normal Students and Graduates:

1. Each student over *seventeen years* of age, who shall sign a paper declaring his *intention* to teach in the Common Schools of the State, shall receive the sum of FIFTY CENTS *per week* towards defraying the expenses of tuition and boarding.

2. Each student over *seventeen years* of age, who was *disabled in the military or naval service* of the United States, or of Pennsylvania, or whose *father lost his life* in said service, and who shall sign an agreement as above, shall receive the sum of ONE DOLLAR per week.

3. Each student who *upon graduating*, shall sign an agreement to teach in the Common Schools of the State *two full School years*, shall receive the sum of FIFTY DOLLARS.

4. Any student to secure these benefits, must attend the School at least twelve consecutive weeks. These benefits are to be deducted from regular expenses of board and tuition.

Students' rooms are furnished with stoves, chairs, tables, stands, pails, bedsteads, mattresses, pillows, and one comfortable.

Students boarding in the Normal Building furnish their lamps, mirrors, wash-bowls and pitchers, napkins, towels, pillow slips, sheets and one comfortable, *which, together with all clothing, should be distinctly marked with the full name.*

All bills (except music, which is settled with the Professor of the department,) must be settled with the PRINCIPAL, who acts in behalf of the Trustees, to whom all applications for rooms or admission to the school should be made.

Government.

The government of the school is based upon the principle, "*Do right because it is right.*"

Special efforts are made to secure obedience to regulations by the cultivation among our pupils of a high *sense of honor.*

The positive regulations adopted are based upon the following principles:

1st. No student should be allowed to trespass upon the rights and privileges of another.

2d. Privileges that all cannot enjoy, shall be granted to none.

It is taken for granted that every student who enters the school is disposed to do right, and to obey the particular regulations of the school, and implicit trust is placed in his sense of honor and propriety.

If pupils are not doing well, either through indolence, negligence or otherwise, their parents or guardians will be informed of it.

If this does not secure attention to duties, a request will be made for their withdrawal, or they will be removed by the authorities of the school.

Parents and guardians are earnestly requested not to send us persons who have contracted bad habits, as the safety of others will demand their dismission.

Every care is taken to remove temptation to wrong doing, but upon the discovery that a student *cannot be trusted*, he will be removed from school.

Visitors.

Calls on the pupils at other times than during the hours of recreation, seriously interfere with the objects they have in view, and therefore will not be allowed except in case of necessity.

Persons desiring to visit the school are cordially invited to do so at any time, and especially on Wednesday afternoon of each week.

Normal Literary and Athenæan Societies.

These are Literary Societies composed of students of the Normal School. They have small but select libraries. Literary exercises are held weekly, and each society gives an annual entertainment.

Location.

Mansfield is a village situated on the Tioga Railroad, thirty-one miles from Corning, N. Y., and ten miles from Blossburg, and on the Troy and Wellsboro Stage Line, sixteen miles from Troy, and twelve miles from Wellsboro. The population of the place is about 1,000; and by a special act of Legislature, no intoxicating liquors can be sold within a radius of two miles of the State Normal School buildings.

Students coming via the *Northern Central R. R.* or *Lehigh Valley R. R.* change cars at *Elmira, N. Y.*, and at *Corning N. Y.*; those residing on the *Erie R. R.* change cars at *Corning, N. Y.* Students coming via *Northern Central R. R.* can come by stage from Troy.

Buildings and Fixtures.

The building is of brick, one hundred and fifty feet in length by fifty feet in width. The main building is five, and the wings four stories high, including the story of sky-lights. The rooms for students are large, with extra height of ceiling.

The cost of the buildings and grounds is about thirty-six thousand dollars.

The boarding hall is so arranged that students are grouped in families of ten or twelve at the tables. This grouping is made with distinct reference to the cultivation of social habits,

It might be advantageous to speak of the new building

and the rules and usages of good society. Each table has an equal number of each sex alternately seated around it. By this arrangement, very many of those rude and unrefined habits so often met with in boarding halls are done away with.

As in the home circle, the association of brother and sister is beneficial, so in the school-room the co-education of ladies and gentlemen is deemed equally beneficial; and we have invariably found, that the good sense of both, when under proper restraint and regulation, have developed a social intercourse which has been productive of a greater growth in mental and moral culture.

The four churches of the place furnish opportunities for religious worship on the Sabbath, and each student is required to attend some place of worship at least once on the Sabbath, unless for *special* reasons he may be excused. Among the other religious privileges of the school, are the Sabbath Morning Bible classes and Sabbath Evening Prayer meeting. Students are cordially invited to attend them.

State Normal Musical Academy.

This Institution, founded by its present principal, after a careful and thorough examination of the best methods of instruction that have yet been introduced, embraces all the excellencies and advantages that can be found in any Musical Institution, together with many important additions which are admirably adapted to the wants and requirements of students, and also in keeping with the advanced ideas of the age. Music is taught here as other sciences are taught in our schools and colleges. There is a perfect arrangement of the respective departments, and the studies are classified in such a manner as to form four distinct courses of study, viz :

SACRED MUSIC,
SECULAR MUSIC,

ORCHESTRA MUSIC,
BRASS BAND MUSIC.

Each Course includes Two Degrees—Elementary and Classical.

The combination of studies that form the different courses, is one of the most important features of the institution, as they are arranged with a view to a symmetrical development of the faculties, nothing short of which can produce the desired result in an education of any kind, where a correct judgment, a cultivated taste and a fluent executive ability are concerned.

It therefore becomes as profitable to the student, for purposes of mental culture and development, as the same length of time in literary institutions of the same grade, thus forming a part of their real education. A definite standard is established in each course, as to the extent of musical excellence, and by it a more complete education is gained at a much less expense, and in a much shorter time than was ever supposed possible by any other means.

It places the professional musician on a level with members of other professions, and gives the proper standard to a science of unbounded beauty and worth.

Special attention is given in all the departments to the various details of a thorough technique, without which it is impos-

sible for any one to give a fine rendering of even the simplest composition.

The Sacred and Secular Courses, each consist of a concrete course of Theory, Voice and Instrument, combining the exercise of the Mental, Æsthetical and Executive faculties, enabling the student to read, write and speak in an elegant manner the language of music.

The Orchestra and Band Courses omit Voice and include all the instruments involved.

COURSES OF STUDY.

Sacred Music Course.

Elementary Degree.—This includes Voice Technique, and its application in Sacred Songs, Psalmody, Anthems, Chants, &c.; Organ Technique and the study of accompaniment playing as applied to music appropriate to church service; Theory of Thorough-Base, (completed,) with a thorough practical knowledge of the same elements of Harmony, including rules of progression and four part writing.

Classical Degree.—This involves the study of elaborate Vocalizes, Aria, Recitative and Chorus, giving the student a complete practical knowledge of the proper treatment of Oratorio and other Classical Sacred Music; Organ Study, including the accompaniment of Chorus in Classical Works, and practical Voluntaries for Church service; the advanced study of Harmony and Composition for Organ and Voice of music appropriate to this course.

Secular Music Course.

Elementary Degree.—This includes Notation, Voice Technique, and its application in songs, ballads and light chorus. Piano Technique, and the study of all kinds of popular music with Phrasing and Expression; theory and practice of

Thorough-Base, (completed); elements of Harmony, including rules of progression and four part writing.

Classical Degree.—This involves the study of elaborate Vocalizes, Aria, Recitative, Heavy Chorus and Opera, also Cadenza, Fermata, and all the embellishments by which melody is adorned ; the study of Velocities for Piano, also Accentuation, Accompaniment Playing, Treatment of Pedals, Scales, Analysis of Fingering, Analysis of Tone, and in fact every principle of Piano playing as applied to elaborate Solos, Variations, Fantasies, Concertos, &c.; the advanced study of Harmony and Composition for Piano and Voice of music appropriate to this course.

Orchestra Course.

Elementary Degree.—This includes Notation and the Technique of one instrument in each of the three classes that belong to this course, viz : String, Wood and Brass, also Solo and Ensemble playing in all kinds of popular music, with Phrasing and Expression; Thorough-Base (completed); Elements of Harmony.

Classical Degree.—This embraces the study of elaborate Solo playing, Variations, Fantasies, &c., and Ensemble practice in Overtures, Symphonies, Oratorio and Opera; the advanced study of Harmony, Orchestration and the Composition of appropriate Orchestra Music.

Brass Band Course.

Elementary Degree.—This includes the Technique of one instrument and its application in all kinds of popular music, both in Solo and Ensemble playing ; the principles and classification of all instruments used for music of this character and Band Tactics for field purposes ; Thorough-Base (completed); Elements of Harmony.

Classical Degree.—This embraces the study of elaborate Solo Playing, Variations, Fantasies, etc., also Ensemble practice in the various styles of Classical Music for Field and Concert purposes; the advanced study of Harmony, Composition, Instrumentation and Arrangement of music appropriate for Brass Bands.

Elective Course.

Students have the privilege of deviating from an established course, if for any apparent reason it may seem advisable. Any study may be selected and pursued separately, or a selection may be made from the different departments; or, if desirable, their time may be divided between musical and literary studies. Unparalleled advantages are offered to those desiring to pursue such a course, as the STATE NORMAL SCHOOL is situated but a few rods distant, in which all branches pertaining to a liberal education can be pursued. The institution is in a very flourishing condition, and is rapidly increasing in popularity.

*Some change
is needed
here*

Explanation of Studies.

NOTATION implies the study of all the characters that are used to represent musical sounds as applied to any instrument, or in vocal music.

VOICE CULTURE.—This study implies the formation and delivery of the human voice, its proper management as applied to music of all grades and styles, either in solo or chorus.

INSTRUMENT.—This implies a proper formation of the hand, the acquirement of a correct touch, tone, facility of execution, the requisite combinations for effective playing, and the ability to read appropriate music.

THOROUGH-BASE teaches the formation of chords, and the ability to recognize them, either by score or from figures, also, to play them.

HARMONY involves the construction of chords, and the laws that govern their progression; also, the manner in which they are applied in writing chords, or any music in regular parts.

COMPOSITION teaches the construction of various forms of melody, and gives a proper formation to the conceptions of the mind, as applied in producing desired effects of different chords or management of harmony, in giving correct expression to the sentiments of poetry.

INSTRUMENTATION OR ORCHESTRATION.—This involves the study of mechanism, compass, character and proper management of all instruments in Band or Orchestra, and a correct

distribution of the harmonies among them, having due respect to light and shade.

Diplomas.

Any student graduating in the Elementary course will receive a diploma in which will be named the branches he has studied, and by which he will be constituted Bachelor of Musical Elements. The Diploma of those graduating in the Classical Course will enumerate the distinctive branches of this course, and constitute its holder Bachelor of Musical Classics.

Certificates.

Students wishing to discontinue their studies at any time can have a certificate setting forth their qualifications at that time, whatever may be the degree of advancement which they have made.

Building and Fixtures.

In addition to extensive repairs that were made upon the building last year, it will, during the summer vacation, be newly painted, and the rooms will be papered, with all other improvements that may be deemed necessary. It is capable of accommodating a large number of students, and is one of the most convenient for the purpose that can be found. It is arranged with Reception Room, Office, Class and Practicing Rooms, Reading Room, and a convenient hall for Chorus, Band, and Orchestra practice. It is completely furnished with Pianos, Organs, Melodeons, Guitars, &c., together with a fine set of Brass Band and Orchestra instruments for the use of students, in fact everything that can in any way aid them in the pursuit of their studies.

The reading room is furnished with the leading musical journals, whereby students are able to become acquainted with the progress of musical matters in all portions of the country.

Board.

The State Normal School building contains a large boarding hall, in which students from both schools are accommodated.

The expenses are \$55 per term, including heat, light, room rent and washing. Rooms are furnished with stoves, chairs, table, stand, pail, bedstead, mattress, pillows and one comfortable. Students furnish everything for their rooms except the above mentioned articles. Board can be obtained in private families, or rooms rented where students can board themselves, if they desire to do so.

Free Advantages.

Students taking a full course, are entitled to the use of instruments four hours per day, and those taking a single study two hours, and others in proportion, without extra charge.

Full course students will also be entitled to an extra study free, if their time and strength permit.

A class held in the music hall for the purpose of chorus and oratorio practice, is also free to full course students.

Notation class free to all students.

Time of Payment.

Tuition is payable each half term in advance. Thus, the first payment for a full course must be twenty dollars, to be made on first day of the term; second payment ten dollars, to be made at the middle of the term. The tuition for less than a full course is payable in the same ratio. Music and books to be paid for when received.

Qualifications for Admission.

No previous study is necessary in order to enable the students to become members of this institution. If they enter as beginners, they have a regularly graded course of studies through all the departments; or, if they have made any degree of proficiency, they can commence wherever their previous studies have left them.

Location.

See Normal School circular.

Regulations.

Students upon entering, are required to record their names, place of residence, the studies they wish to pursue, and the time for which they enter in the school register.

Like all institutions of learning, it becomes necessary to have certain rules for the government of students. Experience has proved that a few, properly adhered to, produce better results than many which are often broken; therefore, great care has been taken that every one is made with special reference to the welfare of students, not only in promoting their happiness, but that they may have every opportunity for improvement.
